CBSE (Class XII)	2022	Mount Olivet Senior Secondary School, Delhi	78.6%
CBSE (Class X)	2020	Mount Olivet Senior Secondary School, Delhi	89.8%

INTERNSHIPS

Web Development Intern, TECHOCTANET SERVICES, WFH (Remote)

March 2024-April 2024

- Worked as a Web Development Intern and built some projects assigned to me during this period which helped me in enhancing my skills.

PROJECTS

LOCKBOX – A Password Managing Application | [Link](#) | React, Tailwindcss, MongoDB, Express

- A password managing website which helps in managing and storing all your passwords at one place and helps in easy access of your all passwords.
- It uses MongoDB as the backend database for storing the passwords.

FANFUNDED – A Monetization Platform | [Link](#) | React, JavaScript, NextJS, Tailwindcss, HTML

- A website made for creators/artists where they can showcase their skills and their fans or supporters can support them monetarily and help them grow and create more.
- It uses NextAuth for authentication and Razorpay integration for performing payments.

STOCK MANAGEMENT SYSTEM | [Link](#) | React, NextJS, MongoDB, Tailwindcss

- A website that helps in effective managing the stocks present in your store or shop.
- It uses MongoDB as the backend database for storing all the details of the stocks.

ACHIEVEMENTS

- Participated in **VIHAAN007**, North India's Largest Student Run Hackathon in April 2024, competing with more than 400+ teams and made it to top 100 by successfully clearing Round 1.
- Participated in **Smart India Hackathon (SIH)**, 2023
